BRING YOUR BIKE

## Find the Bike Rack For You: 5 Road-Tested Picks

### Best Hitch Mount: Yakima Dr. Tray

One of the easiest and a quickest racks to assemble and install, the new Dr. Tray is available for both 1.25" and 2" hitches. Incredibly versatile, the Dr. Tray can handle road, mountain, and fat-tire bikes (up to 5" tires.) With 18" between the trays and tool-free adjustable spacing, it takes only a few seconds to ensure that your bikes won't interfere with each other. [\\$579; outdoorplay.com/](#)

### Best Roof Rack: Yakima HighRoad

The new HighRoad let's you keep the front wheel on your bike without the loss of stability that's common on such roof mounts. Universal mounting hardware makes it compatible with most roofs and a new system makes it impossible to over-torque the bike retaining system. [\\$229; moosejaw.com/](#)
