## Fatter Winter Rack

Haul more of the newest gear to the slopes on Yakima's FatCat Evo 4 and Evo 6 roof racks. Touted as "the most aerodynamic" snow sports mount by Yakima, the FatCat Evo 4 (\$229) and 6 (\$279) add more than 4 inches of extra space to accommodate wider all-terrain skis and snowboards. The racks hold four skis/two snowboards and six skis/four snowboards respectively.
