A good gift should be a surprise. The best are useful too. And the ones at the top of everyone's list stay useful for a long, long time

**A Stowaway Trailer For Kayak Anglers: Yakima
Rack-and-Roll Trailer****Yakima Rack-and-Roll Trailer**

Yakima

BUY

Also of use (in case you eat it on your One Wheel and tweak out your shoulder) is this beautifully designed aluminum stowaway trailer from Yakima. I've been cartopping fishing kayakers for years and have always disliked how most modern sit-on-tops exceed the load ratings of most roof racks. Throw two Hobie Outbacks up top on J-Bars and you're asking for trouble if you use any kind of rack that's not bolted to your frame. A trailer like this, which rates to 250 pounds (350 if you upgrade the suspension), gives me peace of mind when I'm traveling to fish, especially if the wind is blowing. It's also nice not to have to clean-and-jerk 80 pounds of plastic onto the roof of my 4Runner at 4 a.m. The trailer folds up and rolls into small spaces if you've already got too much gear in your garage. **\$2,299**
