Adventurers, Meet The Outdoor Gear You're Going To Want To Put On Your Holiday Wish List

8. Yakima SkyRise Tent Medium

Designed as the first-ever tent for transforming the rooftop of your car into the ultimate campsite, Yakima's SkyRise tent is as cool as it sounds. With a setup time of just a few minutes (after installing it on your car, of course – a process that's done without the need for tools, by the way), the Skyrise is a lifesaver when conditions aren't ideal – or you're in a tight space, like a festival car camping lot (I'm looking at you, Coachella). Plus, there's a foam mattress inside for even more added comfort. I like the medium size SkyRise because it can fit three adults – and I can guarantee that once your friends see this setup, they'll be asking to crash with you. \$1,349
