## 2017 HOLIDAY GIFT GUIDE: GIVING THE GIFT OF ADVENTURE

With the Holiday Season fully upon us, it's time to grant loved ones their gear wishes. Whether their passion of choice is hiking, ascending mountains, or just good ol' fashioned outdoor revelry, we've got you covered. Following is our editors' definitive holiday gift guide chock-full of do anything, go anywhere products for the seriously savvy outdoor fanatics.

### Yakima FatCat EVO

Listen, we get it... shopping for the outdoorist in your life can be a daunting task. But if they love getting a little gnarly and shredding deep pow, then this is your go-to option. Yakima has updated the most aerodynamic and premium-styled snowsport mount on the market making them even "phatter" for 2017 with more room for gear, a new color option, and a T-slot hardware accessory for a super-low profile.

Available in 4- and 6-ski options, the FatCat EVO features over four inches of total additional space for snowboards and today's wider all-terrain skis, allowing all skis to each be 136 mm wide at the tips. The new HangOver™ clamp location is an optional clamp-mounting position that makes it easier to reach skis or boards.
